Memory Flute

Una vuelta de tuerca al tradicional **Memory**

De 2 a 4 (recomendado) jugadores

El juego es sencillo...hay que formar trios con nota, nombre de nota y posición de flauta...
(También puedes jugar una versión más sencilla y rápida: a parejas nota-flauta)

... pero cuando sacas un trío y si tu competidor anterior o posterior tiene la nota anterior o posterior a la tuya, puedes elegir:...¡¡se la puedes robar!! o intentar sacar otra trío.

Pero ¡ATENCIÓN!... Si logras el Si b....¡¡lo pierdes todo!!

¿Podrás conseguir la escala de Do M?

(También puedes jugar una versión más sencilla y rápida: a parejas nota-flauta)

El juego está realizado en blanco y negro ya que imprimo varias copias en diferentes papeles de colores, lo que me facilita tener varios grupos con este juego en clase y que no se mezclen las fichas (... el rojo, el verde, el azul...)
